

QUALITY POLICY

ARVF proceeds to define its "Quality Policy" by framing it within a broader vision of the overall corporate strategy and its market positioning. The corporate strategy adheres to the following general guidelines:

- ♣ Conduct its activities with the aim of achieving real and lasting results;
- ♣ Ensure that the outcomes of the process are products in line with the highest quality standards;
- ♣ Focus on the education and training of human resources in order to increase overall professional knowledge and create an efficient work team;
- ♣ Manage risks and opportunities, as well as the needs of interested parties, paying particular attention to every aspect associated with its business context.

The company policy therefore aims to:

- meet customer expectations, even when unexpressed;
- ensure that the products manufactured comply with applicable standards and specifications and meet requirements for fitness for use, performance, safety, and reliability;
- conduct its activities in compliance with environmental, health, and safety standards;
- develop the company culture towards the concept of "total quality";
- comply with and meet the CE marking requirements established by EU Directive 2014/68/EU (PED) until certification is obtained;
- produce its products in compliance with API Spec 6.D, designing and manufacturing new items in accordance with all the requirements contained therein.

To this end, ARVF has decided to:

- involve all personnel through ongoing information and training activities focused on compliance with product requirements related to CE marking and API Spec.6D;
- establish an organizational structure aimed at implementing the stated objectives;
- provide adequate equipment and resources suitable for the company's context;
- assess and implement appropriate resources for corporate protection and safety;
- exercise constant control over the implementation of what is outlined in the Quality Manual;
- periodically review the System's compliance with the company policy and make the necessary changes to achieve this goal;
- periodically update objectives with the aim of continuously improving activities.

Annually, the GENERAL MANAGEMENT undertakes to review this document, integrating it with the annual general objectives.

For 2026, ARVF aims to:

- ♣ Certification and CE marking and subsequent extension
- ♣ Obtaining product certifications (PED, ATEX, SIL FireSafe, ...)
- ♣ Creation of the company website
- ♣ Creation of the IT Management System

This policy and its updates will be disseminated through the company's website.
